

Contributions to the Idea-Rank Project

1. Dhairya and Esha (Frontend & Elm Development)

- Designed and implemented the user interface using **HTML** and **CSS**.
- Contributed to the **Elm codebase**, focusing on state management and UI integration.
- Coordinated project tasks, ensuring timely progress and proper version control using Git.
- Drafted parts of the **README.md**, focusing on frontend documentation and setup instructions.

2. Anket and Khashayar (Elm Development & Project Coordination)

- Authored and managed the core **Elm application logic** in the Main.elm file.
- Set up and configured elm.json, managing dependencies.
- Handled responsive design and ensured cross-browser compatibility.
- Drafted parts of the **README.md**, focusing on backend integration and project usage.
